Locomotives

&

Multiple Units

Preface

The Locomotives and Multiple Unit Trains listed in this book are shown in Class Number order.

The range of Locomotive or Unit numbers applicable to each vehicle Class is recorded, together with the builder and power equipment installed.

It is to be noted that the "Vehicle No Range" column is not intended to record the individual numbers of vehicles in service, due to the continued changes in vehicle fleet size. If precise information is required on actual vehicle numbers, reference can be made to the Director of Rail Vehicle Types, Rolling Stock library, or Regional Headquarters.

It is intended that vehicle class numbers listed herein shall be used whenever appropriate in CM & EE Railway Documentation.
